AUDITORS' REPORT.

TO THE INHABITANTS OF QUINCY:—

The undersigned, Auditors of Accounts, appointed at the annual town meeting in March, 1880, respectfully report that they have examined the accounts of the Treasurer, and find the same correctly kept, with proper vouchers for all payments. They find that the amount of cash on hand by his report is at his credit in bank.

They have examined the accounts of the Treasurer of the Woodward Fund, and find that he has proper vouchers for all payments; that the balance of cash on hand is deposited in bank, and that the securities in his possession agree with the schedule given in his statement.

They find that the Treasurer of the Sinking Fund has a note, secured by mortgage, for the amount of the principal of the Fund, and that his report shows the condition of the Fund.

They have scrutinized and verified the accompanying account of the Selectmen, and find proper vouchers for all payments made by them. The account is correct and properly kept, and the amount of money there stated as drawn by the Selectmen from the Treasurer, corresponds with the amount charged to them on his books. The Selectmen have complied with the provisions of the vote of the town in relation to the keeping of books and accounts.

In accordance with a vote of the town at the annual town meeting in 1877, the Auditors find it their duty to report that the Selectmen, Messrs. William A. Hodges, William N. Eaton and Charles H. Porter, have exceeded the appropriations in the following accounts:—

Support of poor,	\$684 72
State Aid to indigent soldiers,	52 00
Discount and abatement of taxes,	56 83
Miscellaneous expenses,	568 98
Pay of town officers,	473 25

The School Committee, Messrs. John Q. Adams, George L. Miller, Charles F. Adams, Jr., Edwin W. Marsh, Jason G. Witham, Alfred Sampson and William G. Sheen, have exceeded the appropriations for the support of schools by the sum of \$159.28.

The Engineers of the Fire Department, Messrs. John W. Hall, John A. Duggan, Patrick F. Lacy, J. Warren Hayden, Thomas H. McDonnell, William C. Seelye, Joseph M. Glover, James T. Penniman and Lucius W. Lovell, have exceeded the appropriation for that department by the sum of \$36.27.

The *net* amount of the town debt has been decreased \$13,267.02 during the past year, making it now \$26,470.67.

The *actual* amount owed by the town is, as per statement of Town debt, page 90, \$61,793.33, against \$68,980.33 last year, showing a decrease of \$7187.00. The amount of the town notes has been decreased \$7000.00 during the year.

JOHN CHAMBERLIN,
WM. LYMAN FAXON,
H. A. KEITH,

Auditors of Accounts.

SELECTMEN'S REPORT.

TO THE INHABITANTS OF THE TOWN OF QUINCY:—

The Selectmen, Overseers of the Poor, Surveyors of Highways, and Assessors, respectfully submit their annual report for the fiscal year ending February 1, 1881.

They would first call your attention to the unfinished repairs of the Bit. At the annual town meeting held in March last, the sum of five hundred dollars was appropriated to widen the road and build a rip-rap wall at this point. The work upon the same was begun in November, 1880, and after a few days' labor it had to be abandoned, the cold winter weather coming upon us very suddenly, and much earlier than usual. About one hundred feet was practically finished and the posts and rails are bought ready to be put up over the entire length. That part of the work done seems to be just what is wanted, and we recommend, as will be seen in another part of this report, that the sum of \$300 be appropriated to complete the same. In general, the highways are in good condition.

The necessity of a new almshouse demands the immediate attention of the townspeople. There are now in the present building 29 inmates. Of this number 11 are children from three months to twelve years old. The absolute necessity of a ward or separate place for these children, where they can be separated from the older people, must be apparent to every one. We are still of the opinion that, with suitable quarters, the sum annually expended for the poor out of the almshouse could be greatly reduced. In this item alone, as will be seen by the report, there has been expended over

\$1000 less than last year. The excess of expenditure in the poor account is to be found in the increased cost of the almshouse establishment, and this increase is due, in a great measure, to the largely augmented number of inmates now in the building, being nearly double the number of last year.

The assessed value of real and personal property in the town is larger than last year. The rate of taxation for the year shows a high rate, as never before has the town, in but one instance, voted so much money as at its last annual meeting.

The discounts were unusually heavy for the year, being $\$3830\frac{32}{100}$; showing that the Tax Collector had paid into the Treasurer over \$96,000 by September 15.

The system of keeping the accounts, and improved system of vouchers, have been tried for one year, and we recommend that they be maintained.

The business of the town is increasing year by year as the town grows in size, and more time is demanded of the officers in their various positions.

All of which is respectfully submitted.

WILLIAM A. HODGES.

WILLIAM N. EATON,

CHARLES H. PORTER.

SELECTMEN'S CASH ACCOUNT.

The Selectmen have received from the Treasurer,
 during the year ending Feb. 1, 1881, as per
 his Report, \$104,903 11

They have paid as follows : —

MOUNT WOLLASTON CEMETERY.

The Board of Managers of the Mount Wollaston Cemetery submit their seventh annual report.

The sum of \$130 has been received for thirteen lots sold the past year.

The sum of \$924.05 has been charged for labor on lots, which includes the amount charged for grading the lots sold, and of this sum \$718.55 has been collected, leaving \$205.50 due.

The sum of \$75 has been added to the "Repair Fund," which now amounts to \$775, the income of which will pay for "perpetual care" for the nine lots designated by the depositors of the money.

In view of the improvements contemplated by the managers, by grading and terracing the bluff, on the westerly side of the cemetery, and other general improvements, and adornments of the grounds, as well as for the general care of the avenues, paths, trees, &c., the managers respectfully request the usual appropriation of \$1000.

GEORGE L. GILL, *Secretary.*

CHIEF ENGINEER'S REPORT.

TO THE HONORABLE BOARD OF SELECTMEN : —

Gentlemen, — In accordance with the usual custom, I herewith submit a brief report of the condition of the Fire Department :

The Department is at present under the control of a chief and five* assistant engineers ; viz., —

John W. Hall, *Chief*.

Patrick F. Lacy.

Thomas H. McDonnell.

Joseph W. Hayden.

James T. Penniman.

John A. Duggan, *Clerk*.

The apparatus of the Department has been increased during the present year by the purchase of a chemical engine, hose jumper and 1750 feet of hose. The chemical engine is a first-class machine, constructed by C. T. Holloway, of Baltimore, and I think another equal to it in all respects cannot be procured for nearly double its cost. The hose was procured of Messrs. Boyd & Sons, and is of the best quality manufactured by them. All of the other rolling stock and apparatus of the Department is in good condition.

The buildings of the Department are all in good condition inside ; contracts have been made for painting the outside of the frame buildings, which will probably be completed as soon as the weather will permit.

One reservoir has been constructed during the year, on Baxter place. Another is called for by the residents near

* Lucius W. Lovell served upon the Board until October, when he resigned.

the junction of Washington and Sumner streets, and I think it but an act of justice that it should be granted them.

The Department is now well supplied with hose, there being 1750 feet of new cotton and 2600 feet of other good cotton; the balance of hose in the Department is condemned for fire purposes, but will answer for filling reservoirs, &c.

The number of men now on the rolls of the Department is as follows:—

Tiger Engine Co. No. 2	.	.	.	50
Granite " " 3	.	.	.	50
Vulture " " 4	.	.	.	50
Hook & Ladder " " 1	.	.	.	25
W. M. French Hose Co.	.	.	.	20
L. W. Lovell (Chemical) Co.	.	.	.	20
J. Q. Adams " "	.	.	.	10
Blake Steam Pump	.	.	.	1
Total	.	.	.	<u>226</u>

The Selectmen's report shows, and the Auditors will undoubtedly say, that the gentlemen composing the Board of Engineers have exceeded their appropriation to the amount of \$36.27; but had the amount of \$125 charged to the engineers, been charged, as in former years, to the account of "Pay of Town Officers," which they certainly are, the Department would show a saving in their expenditures less the appropriation of \$88.73.

In my last report, I recommended that the water-pipes be extended to Franklin street and also to Washington street. I am still of that belief, the more so, as I am firmly impressed with the thought that if there had been a hydrant on Washington street, near Canal street, in December last, much of the property destroyed on the 8th of that month might have

been saved. I also deem it my duty to state, that in my opinion, the time has arrived for a radical change in our system of fighting fires ; and I would respectfully urge the tax-payers of the town to carefully and candidly consider whether or not a steam fire engine, to be located in the South district, with a first-class chemical engine at the West district and Quincy Point, will be of more service and be maintained at much less expense than the present system.

In compliance with the provisions of Section IV. of the town by-laws, I have the honor to report that the Board of Engineers recommend an appropriation of \$4700 for the ensuing year.

By a vote of the Board of Engineers, I am requested to insert the following recommendations in this report ; viz., —

1. That a telegraphic fire-alarm system be established.
2. That the number of the company attached to the J. Q. Adams Chemical Engine company be increased to twenty-five.
3. That a reservoir be constructed at the junction of Con-test avenue and Billings street.
4. That a self-filling reservoir be built on Washington street opposite Mill street.
5. That the line of pipe be extended to a point near the Tiger engine house.

The Department, or a portion of it, has been called out twenty-nine times during the year ; twenty-three times by alarms caused by fires in town, five times by fires in neighboring towns, and once by a false alarm. The fires in town occurred in the following order ; viz., —

1880.

April 12. Alarm caused by burning of woods in West District.

1880.

April 16. Dwelling-house at Wollaston, owned by W. W. Pratt, entirely destroyed by lightning; loss \$2500; insured.

" 25. Shop of Michael Goodhue, Phipps street; accidental loss \$250; insured.

" 27. Dwelling-house of Thomas Gerry, Old Colony street; defective flue; loss \$975; insured.

May 2. Barn of Paul Wild, Washington street, incendiary; loss \$1000; insured.

June 1. Adams Academy boarding-house, Hancock street, slightly burned by explosion of lamp.

" 18. Small barn on the Marsh estate, corner of Marsh and School streets; carelessness; loss \$50; insured.

" 22. Lot of old sleepers near Wollaston foundry; accidental.

" 27. Alarm caused by burning of grass on Town Farm.

July 5. Dwelling-house of Thomas Lamb, Cemetery street, slightly burned; accidental.

" 10. Dwelling-house of Henry Chubbuck, off Elm place, nearly destroyed; accidental; loss \$1300; insured.

" 10. Car-house of O.C. R.R. at Atlantic, destroyed; accidental.

" 17. Alarm caused by burning of a bed in house of Mrs. Arey, South street.

" 30. Dwelling-house of Mrs. Larkin, Billings street, entirely destroyed; incendiary; loss \$1800; insured.

Aug. 2. Alarm caused by a slight fire at Mt. Pleasant.

" 15. Lot of old sleepers near Wollaston foundry; accidental.

" 29. House of D.W. Arnold slightly burned by lightning.

1880.

- Aug. 30. Dwelling-house of Dr. Greene, at Squantum, destroyed ; loss \$600 ; insured.
- Nov. 21. Dwelling-house of heirs of George Williams, Squantum street, slightly burned ; accidental.
- " 30. Dwelling-house of Patrick Flaherty, Furnace street, slightly burned ; accidental ; loss \$75.
- Dec. 8. Shop of John Page, Jr., and store of Albert Keating, Washington street, entirely destroyed ; accidental ; loss \$6500 ; partially insured.
- " 16. Boat-house of John Federhen, Quincy Point ; incendiary ; loss \$100.
- " 26. Alarm caused by a burning chimney at Quincy Point.

In addition to the foregoing, two fires occurred of which no alarm was given. The first, March 1, when the old landmark known as the birthplace of John Adams, accidentally took fire, but was speedily extinguished. The other, May 12, the residence of W. D. Merrill, at Wollaston, caught fire caused by a child playing with matches ; by a timely discovery it was also speedily extinguished.

As the personal property in the several buildings of the Department remains substantially the same as by the last report, with the exception of what is in charge of the J. Q. Adams Chemical Company, I deem it a useless expense to republish the same. That company has at present one chemical engine, one hose jumper, 350 feet cotton hose, 2 fire ladders, 1 fire hook, 2 water-casks, 4 settees, 1 desk, 1 stove, 3 lamps, one oil-can, 1 coal-hod, 24 mugs, 1 water-pot.

My thanks are due your Honorable Board for the courtesy shown on all occasions ; also to my associates on the Board of Engineers, for their support and assistance ; and to the

officers and members of the several companies composing the department, for the prompt and able manner in which they have responded when called upon.

Respectfully submitted,

JOHN W. HALL,

Chief Engineer Quincy Fire Department.

REPORT OF COMMITTEE ON PURCHASE OF LAND FOR NEW ALMSHOUSE.

The Committee to whom was referred the purchase of a site for a new almshouse, submit the following report : —

Its organization was effected by the choice of E. B. Taylor, Esq., as Chairman, and Charles H. Porter, Secretary. The various places suggested as suitable sites for the almshouse were carefully examined by the Committee.

In May last the chairman passed away, and his valuable services were lost to the Committee. J. W. Robertson, Esq., was elected to fill the vacancy.

Many meetings were held, and until late in the season no selection was made. After much earnest care and attention, the chairman was authorized to purchase the land on Adams street, owned by Mr. J. B. Newcomb, about eighteen acres in all, for the sum of six thousand dollars. The purchase was made, the papers duly executed, the deed was recorded and is now in the possession of the Town Treasurer.

All of which is respectfully submitted.

C. H. PORTER,
for the Committee.

REPORT OF COMMITTEE ON ENLARGEMENT OF TOWN HALL.

To the Inhabitants of Quincy:

The Committee chosen at the annual March meeting in 1880 to consider the expediency of enlarging the town house and purchasing adjoining land of H. H. Faxon, have carefully considered the matter.

If, in consideration of the rapid increase of the population, the town think it proper to provide more commodious accommodations to enable the people to meet at their annual meetings, and such other meetings as the public good requires, there seems to be no practicable way of enlarging the present building without more land; and your Committee would in that case recommend the purchase of the necessary quantity of land from Mr. Faxon. They would also suggest that the building be lengthened twenty-four feet in the rear, and that a projection be built in the centre of the north side, large enough for an entrance and stage. The present entrance on Hancock street could then be closed. The estimated cost of the proposed alteration of the building is \$10,000, and that of the land is \$2717.34.

Respectfully submitted.

WILLIAM A. HODGES.

JOHN Q. ADAMS.

EDWIN W. MARSH.

THE THOMAS CRANE PUBLIC LIBRARY.

The Trustees of the Library ask leave to offer their tenth annual report.

In accordance with a vote passed at the last annual town meeting, the Board of Selectmen applied to the Legislature, then in session, for an act incorporating the Trustees of the Public Library, so that the land on which the family of the late Thomas Crane proposed to erect the memorial library hall might be deeded directly to them. The application was favorably considered by the Legislature, and, under a suspension of the rules, leave to bring in the desired act was granted; and it became a law on the 17th of April, 1880. A copy of this act is submitted with the present report. It was duly accepted by the Trustees at a meeting held on the 4th of May, 1880, when the old Board of Trustees of the Public Library of Quincy, which organized on May 11, 1871, and accordingly had then been in existence nine years, lacking one week, was dissolved; and the new Board of Trustees of the Thomas Crane Public Library organized. Technically speaking, therefore, the present is the first report of the new Board. As, however, the change was merely a nominal one, made for certain practical purposes, we have not thought it either necessary or advisable to confuse matters further than need be by changing the enumeration of the Library reports.

Votes were also passed at the last March meeting looking to the purchase by the town of the homestead of the late Dr. Woodward, the Crane family having intimated a preference for that as the site of their proposed memorial building.

This purchase was consummated in May, and the property decded directly to the new Board of Trustees. The price paid was \$10,000, being the sum for which the owner had previously signified his willingness to sell, and which accordingly had been appropriated by the town.

By a further vote, passed at the same time as those already referred to, the Board of Selectmen and the Trustees were appointed a special committee to meet the representatives of the Crane family, and to do whatever might be necessary to forward their project. By direction of this committee the buildings, and whatever else there was of a movable character on the Woodward lot, were sold at public auction on June 1st, bringing the sum of \$1359.

The property was purchased subject to a lease which had yet a year to run. Neither the Crane family nor the committee were willing to defer construction until this lease should expire, and it accordingly became necessary to buy it. This was finally done at a cost of \$500, which was met out of the \$1359 obtained by the sale of buildings, &c., as before stated. The balance, \$823.90, after deducting \$35.10 for expenses of sale, is now in the hands of the Town Treasurer, and is accounted for in the report of the Selectmen.

The joint committee met Mr. Albert Crane, representing his father's family, together with Mr. H. H. Richardson, whom he had engaged as the architect of the proposed building, on the 12th of April. It affords the committee pleasure to report that no difficulties, whether of detail or otherwise, have arisen, and that the new building, the foundations of which have already been laid, is under contract to be finished by the 1st of October next. In regard to the plans, arrangement of the interior and details of construction, in so far as they affected the use of the building for library purposes, both Mr. Crane and Mr. Richardson freely con-

sulted with the committee and invited suggestions. Indeed, throughout this matter, the course of the Crane family has been marked by a spirit of liberality and courtesy which we do not think should be taken as a matter of course or pass unnoticed. The original purpose, as expressed in Mr. Albert Crane's letter to the Selectmen, of February 19th, 1880, which the town directed should be placed in full on its records, seemed munificent enough at the time. It was to erect a building to cost not less than \$20,000. In the building contract, as it was first executed, this amount was largely exceeded; and additions to the plan since authorized by the Crane family will increase the cost to nearly twice what was first proposed.

Of the architectural design and appearance of the edifice, when finished, it is not necessary for us now to say anything. At the proper time they will speak for themselves. As is well known, the architect having the work in charge stands at the head of his profession in this country, and in the present case he has certainly spared no pains. There is every reason, therefore, to believe that the result will prove no less well adapted to the practical needs of the town, than it will be gratifying to the family to which we are indebted for it.

Before passing from this subject to the usual matter of the annual library-report, the Trustees cannot refrain from congratulating the town that what has for some time been to the people of Quincy a great and increasing need has been thus opportunely supplied. In our report of two years ago we referred to this subject in these words:—

“The great need of the institution now is an obvious one. It should have a commodious and better adapted library room in a more central part of the town,—that is, it should be nearer the station, the post-office, the banks and the business centre, where it can be most conveniently reached by the greatest number of

persons. The trustees have no intention of asking the town to consider the question of again removing the library, much less of undertaking the cost of erecting a suitable building for it. For this no sufficient exigency exists: neither are the times propitious. In other and neighboring towns, however, — as, for instance, in Hingham, in Braintree, in Randolph, and in North Easton, — the needs of the public libraries in this respect have been met by the gifts or bequests of wealthy inhabitants desiring to do something to evince their interest in their native places. Quincy possesses a library inferior in size or excellence to those of few other towns. This collection, which, if lost, could only be replaced at an expense of many thousand dollars, is now kept in a wooden building and is peculiarly liable to destruction by fire. . . . Under these circumstances the trustees are . . . not without hope that the great want of a suitable and commodious library building will ultimately be met in Quincy as it has been met elsewhere. Private munificence may supply a public need. Certainly no better field for its exercise could be desired."

The Trustees have no reason to suppose that the suggestion thus thrown out ever came to the knowledge of the Crane family, or in any way influenced their action. On the contrary, we are well aware that it did not. Nevertheless the want thus expressed has been supplied more quickly than the most sanguine ventured to hope, and in a way peculiarly grateful, because wholly unsolicited. Coming also from the family of one who had for many years ceased to be personally identified with the town, the building now in process of erection cannot but serve as a visible reminder of the strong hold which Quincy, in common with all other New England towns, sometimes retains on the feelings of those who have gone out from her. It is also a fact worthy of mention, that, of the four towns into which the original Braintree has been subdivided, — Braintree, Randolph and Holbrook being the other three, — Quincy, the

old "North precinct," where the church was first gathered, was the last to be supplied with a public library building. To the Thayer Library in Braintree, the Holbrook Library in Holbrook, and the Turner Library in Randolph, is now added the Thomas Crane Library in Quincy.

Should nothing unforeseen occur, the Crane Memorial Hall will be completed, and ready for acceptance from its donors, sometime during the coming autumn. The town will, of course, make the necessary arrangements for its formal acceptance, and its dedication to the purposes for which it is designed.

During the year 1880, the Library was open 307 days, and the whole number of books borrowed from it was 50,644; being practically the same as the number (50,466) borrowed during the previous year. The number of names registered is 4730, an increase of 320 over the number registered a year ago. The total expenses of the Library, as per Treasurer's balance-sheet herewith submitted, were \$2,718 45.

The usual analysis of books circulated is inserted as a matter of record, though it does not vary greatly from year to year. It will be observed, however, that, so far as any change at all takes place, there is a steady tendency to the increased circulation of books relating to history, biography, travels, the arts and sciences, religion, education, medicine and poetry. Taken together, these constituted 16.7 per cent of the entire circulation in 1880, as compared with 13.4 per cent in 1877. Undoubtedly, with care, and assistance in the proper selection of reading matter, this percentage might be very largely increased. This, however, would require an amount of personal attendance at the Librarian's desk, and an acquaintance with individual borrowers, especially of the younger class, which none of the present Board of Trustees are in a position to give. It would, in fact, ab-

sorb the whole time and thought of whoever undertook to do it properly. On the other hand, such a personal service on the part of any one capable and willing to render it, would add immensely to the value of the Library as an educational influence. It would render it in fact, what it is in theory, the complement of our now widely known public schools; thus perfecting our system of general education. A great deal of progress in this way is now being made by a course of experiments going on at Worcester and in Boston, — the school authorities and those in charge of the public libraries in those places co-operating in them. In Quincy, however, we have not as yet either the means or the organization necessary to enable us to take our part effectively in furthering this work. In due time, however, we will undoubtedly share in its fruits.

The division of reading matter under its several heads has been as follows during the last four years :

		1880.	1879.	1878.	1877.
Fiction,	vols.	24,255	23,909	22,241	24,546
Juvenile Fiction,	"	11,164	12,812	12,264	10,041

Medic'l and Educat'l "		134	131	93	68

The Library has during the year been the recipient of one most valuable gift, essential to the later history of events in Quincy, — a complete set from the beginning of the " Quincy

Patriot," believed to be the only one in existence. It was presented by the late Rev. Fred'k A. Whitney shortly before his death, and was acknowledged by a special vote of thanks in the records of the Trustees, a copy of which was forwarded to the donor. In addition to this gift, 62 volumes and 31 pamphlets were received from various other friends of the Library. One hundred and twenty-four (124) volumes, worn out in circulation, have been replaced; and 220 new ones have been added to the Library. Four hundred and forty (440) volumes were rebound. Some 200 additional volumes were, at the close of the library year (December 31), worn out, and required to be replaced.

Eighteen (18) copies of the catalogue, and 18 of the supplement to it were sold during the year. The proceeds were credited to the catalogue fund.

As a whole, in view of the severe and constant use to which it has been subjected, — every volume in it, it must be remembered, being regularly borrowed, on an average, five times in each year, — the Library can be reported as only in fair condition. When removed to its new quarters it will probably require considerable renewals.

There are no bills whatever outstanding and unpaid. The total balance of the funds of 1880 in the hands of the Treasurer on January 31, 1880, was \$310.05. Of this amount, \$285.40 had been accumulated from fines and the sale of the catalogue, and in accordance with the established policy of the trustees, as explained in their previous reports (Town Report, February 1, 1878, p. 89), is set aside as a reserved fund for always keeping up the catalogue, without the town being asked to make any special appropriation therefor. Deducting this amount from the balance on hand, the surplus in the treasury, after payment of all bills, was, at the close of the year, \$24.55. The dog-tax for 1880 has since

been received, and will appear as usual in the report for the year closing January 31, 1882.

In view of the unusual expenditures which will necessarily be incurred in removing the Library to the Crane Memorial Hall during the coming year, an appropriation of \$2500 is asked for; \$2000 of which will be required to meet the regular and ordinary expenses of the Library, and \$500 such as are exceptional, but necessary. The trustees would further recommend that the sum of \$823.90, derived from the sale of the buildings, &c., on the late Woodward estate, now in the town treasury, as appears by the Selectmen's report, instead of being merged in the unexpended balances of the year, be placed as a special fund in the hands of the Selectmen and Trustees, as a joint committee, to be used in grading, laying out, fencing and suitably ornamenting the site of the new building.

The receipts and expenditures of the past year are set forth in the accompanying report of the Treasurer.

HENRY BARKER,
Treasurer.

COMMONWEALTH OF MASSACHUSETTS.

In the Year One Thousand Eight Hundred and Eighty.

AN ACT TO INCORPORATE THE TRUSTEES OF THE THOMAS CRANE PUBLIC LIBRARY OF THE TOWN OF QUINCY.

*Be it enacted by the Senate and House of Representatives
in General Court assembled, and by the authority of the
same, as follows:*

SECTION 1. The trustees of the public library of the town of Quincy for the time being are hereby made a corporation by the name of the Trustees of the Thomas Crane Public Library of the town of Quincy, and said trustees and their successors in office shall continue a body corporate for the purposes hereinafter set forth, with all the powers and privileges, and subject to all the duties, restrictions, and liabilities in the general laws relating to such corporations.

SECT. 2. Said corporation shall have authority to take and hold real and personal estate to an amount not exceeding one hundred thousand dollars, which may be given, granted, conveyed, bequeathed or devised to it, and accepted by the trustees for the benefit of the public library of said town of Quincy, or for any purpose connected there-

with ; *provided* that both the principal and income thereof shall be appropriated according to the terms of the donation, devise or bequest under the direction of said corporation.

SECT. 3. The trustees of said Thomas Crane Public Library shall be six in number. The present trustees shall continue in office for the terms for which they were elected trustees of the public library by the inhabitants of said town. At the next annual town meeting the said inhabitants shall elect by ballot two trustees of said Thomas Crane Public Library, who shall hold office for the term of three years and until their successors are chosen. And thereafter, annually, there shall be elected in the same manner two trustees for a like period of three years. Whenever a vacancy shall occur in said board of trustees by death, resignation, or otherwise, the remaining trustees shall fill such vacancy by the election of a new member ; and the trustee so chosen shall act until the next annual town meeting, when his successor shall be elected for the unexpired term by the said inhabitants by ballot.

SECT. 4. The members of said board shall organize and provide by means of by-laws, for the choice of officers, and shall have power to make such rules and regulations relating to such public library, and to fix and enforce penalties for the violations of such rules and regulations, as they may deem expedient ; *provided* that the same shall not be inconsistent with the provisions of this act, and shall be subject at all times to such limitations, restrictions and amendments as the inhabitants of said town may direct.

SECT. 5. The said trustees shall have the general care and control of the public library and the grounds upon which the same is now or may hereafter be located in said Quincy, together with the buildings and rooms containing the same, and also of the expenditures of the moneys ap-

appropriated therefor by said town. And said town is hereby authorized to make such appropriations to the same extent that cities and towns are authorized by law to make appropriations for like purposes. Said trustees may appoint a librarian, with such assistants as they may think expedient, and may remove the same and fix their compensation; *provided* that the total expenditures shall not exceed the amounts appropriated by the said town, and other moneys which they may be authorized to expend.

SECT. 6. The inhabitants of said town shall have power to pass such ordinances not inconsistent herewith, or repugnant to the other laws of the Commonwealth, as to the duties and authority of said board, as they may from time to time deem expedient.

SECT. 7. This act shall take effect upon its passage.

REPORT OF THE MANAGERS OF ADAMS ACADEMY.

The Managers of Adams Academy submit the following Report :—

Believing that the year's work can best be told by the Master of the school, it is given herewith :

To the HON. C. F. ADAMS, and other Managers of Adams Academy :

The undersigned respectfully reports :

Little has occurred at the school during the past year wherewith to trouble your board, or the citizens generally. In accordance with the plan embodied in the Manager's last report, I submitted the names of the Quincy boys in the order of success, as shown by examinations and recitations up to the first of May, 1880. There were *fourteen* in all. The Supervisors reported \$700 available for scholarships. *Four* had the tuition fee of \$75 paid by their parents. The above sum paid for *nine*, and \$25 toward the expenses of the *tenth*. The same number—*fourteen*—are at present in attendance from Quincy. The examinations which would chiefly determine their rank are now in progress.

The graduating class also consisted of *fourteen*. All applied at Harvard College in June. *Twelve* were admitted then, and *one* at a second trial in September. One boy, formerly a resident of Quincy—*William Dall Turner*—entered with especial credit. In the course of the year, *two* boys from Quincy were withdrawn ; one in consequence of

my advice, his scholarship being below the standard; the other, greatly against my will, to go into business. Of those from a distance, one left about a month before the end of the year, and one had been withdrawn at my request for a very serious disturbance of good order in the boarding house.

Our public days were celebrated as usual; the "Founders' Day" by athletic sports, 30th October, 1879; declamation for the Adams' gold medal, 3d April, 1880; final exercises, and distribution of prizes, 29th June, 1880.

Our four classes, and the division of some into two parts in several studies, proved to be too many for our force of four teachers. I therefore determined to engage a fifth, and congratulate the managers and the town on having added to our staff, Josiah Quincy, Jr., a graduate with great honor of the Academy in 1876, and of Harvard College in 1880. Every citizen of Quincy must feel this is a new pledge that the school is a town institution.

We have begun the year with increased numbers, better heart, and, as far as appears now, excellent prospects for a very creditable appearance with both our classes at Harvard.

I find the expenses from all sources about exactly tally with the income,—the difference not being twenty-five dollars either way.

With constant and sincere respect,

WILLIAM EVERETT.

All of which is respectfully submitted.

CHAS. H. PORTER,

for the Managers.

WARRANT FOR ANNUAL MEETING,

MARCH 1, 1880.

*NORFOLK, SS. To either of the Constables of the Town
of Quincy, in said County,* GREETING :

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Quincy qualified to vote in town affairs, to meet at the TOWN HALL in said Quincy, on MONDAY, the first day of March next, at eight o'clock in the forenoon, to act on the following articles ; viz., —

ARTICLE 1. — To choose a Moderator.

ART 2. — To choose Town Officers.

ART. 3. — To act upon the reports of Auditors of Accounts, Selectmen and School Committee.

ART. 4. — To determine the method of repairing the highways the ensuing year.

ART. 5. — To determine how the town lands shall be improved during the ensuing year.

ART. 6. — To revise the Jury List.

ART. 7. — To hear and act on the report of the Selectmen upon Guide-boards.

ART. — 8. To see if the town will appropriate the sum of two hundred dollars for repairing and decorating soldiers' graves, the same to be expended und erdirection of Post 38 of Grand Army of Republic.

ART. 9. — To see what compensation the town will allow the Engineers, Members and Stewards of the Fire Department for their services the past year.

ART. 10. — To see if the town will purchase a new Hook and Ladder Truck, as a substitute for the one now located on Canal street.

ART. 11. — To see if the town will purchase a Chemical Engine, and locate the same at North Quincy.

ART. 12. — To see what action the town will take with reference to the extension of the line of Water-pipes.

ART. 13. — To see if the town will purchase 1500 feet of Fire-hose.

ART. 14. — To see if the town will cause a reservoir to be constructed at the junction of Billings street and Contest avenue.

ART. 15. — To see if the town will construct a reservoir, to be self-filling, at or near the junction of Union and Main streets, and that the sum of one hundred and seventy-five dollars be appropriated therefor.

ART. 16. — To see if the town will pay the members of the L. W. Lovell Chemical Engine Company for services rendered during the year 1877.

ART. 17. — To see if the town will instruct the Selectmen not to issue any licenses for the sale of intoxicating liquors as a beverage during the ensuing year.

ART. 18. — To see if the town will authorize the Selectmen to call all special town meetings in the evening at 7 1-2 o'clock.

ART. 19. — To see if the town will grant the free use of the town hall for free lectures.

ART. 20. — To see if the town will appropriate money for the purpose of publishing the records of town meetings of 1873 to 1878, inclusive.

ART. 21. — To see if the town will purchase of Henry H. Faxon about 3800 square feet of land adjoining the town-house lot.

ART. 22. — To see if the town will cause a copy of C. F. Adams, Jr.'s, address upon educational topics to be distributed to each family in town, and appropriate such a sum of money as may be necessary to pay the expense of the same.

ART. 23. — To see what action the town will take on the proposition of the family of the late Thomas Crane in relation to erecting a memorial building for use as a Public Library, and to see whether the town will purchase and grade a suitable piece of ground as a site for the same.

ART. 24. — To see if the town will build a new almshouse, and appropriate money therefor.

ART. 25. — To see if the town will accept the report of the Selectmen laying out Arnold street from Washington to South streets, and appropriate money therefor.

ART. 26. — To see if the town will accept the report of the Selectmen laying out a street from Bridge street to a public way leading from Hancock to Adams street.

ART. 27. — To see if the town will accept the report of the Selectmen laying out Belmont street from Beals street to Lincoln avenue, and Lincoln avenue from Belmont street to Highland avenue, and appropriate money therefor.

ART. 28. — To see if the town will construct a sidewalk on south side of Billings street, and appropriate money therefor.

ART. 29. — To see if the town will construct a sidewalk on Brooks street beginning at junction of Highland avenue, and appropriate money therefor.

ART. 30. — To see if the town will lay a drain down Faxon avenue from Hancock street.

ART. 31. — To see if the town will regrade Washington street, commencing nearly opposite South street, to Thomas' Hall, and rebuild retaining wall upon lands owned by John Federhen and J. L. Whiton, and appropriate the sum of four hundred and fifty dollars therefor, the money to be expended under the direction of Surveyor of Highways.

ART. 32. — To see if the town will construct and accept as a town way, the causeway from Squantum street to Beach avenue in Squantum, and appropriate money therefor.

ART. 33. — To see if the town will repair Squantum causeway, and appropriate money therefor.

ART. 34. — To see if the town will appropriate money to continue the causeway on Sea street, between Quincy's woods and lands belonging to Josiah Babcock and others, and widen Sea street, and build a retaining wall at the place known as the Bit.

ART. 35. — To see if the town will contract with some responsible person to keep the highways in repair the ensuing year.

ART. 36. — To see if the town will accept the provisions of chapter 158 of Acts of 1871, entitled "An act to provide for the election of Road Commissioner."

ART. 37. — To see if the town will ratify and confirm deeds

given by Selectmen of the town reconveying land sold for the non-payment of taxes.

ART. 38. — To see if the town will authorize the Selectmen to appoint such number of Police Officers as they may deem expedient, and appropriate money for that purpose.

ART. 39. — To raise money to defray the necessary expenses of the town the ensuing year.

ART. 40. — To hear and act upon the report of any committee, and choose any committee the town may think proper.

Hereof fail not, but make return of this warrant, with your doings thereon, unto the Town Clerk, on or before the day and time appointed for said meeting.

Given under our hands, at Quincy, this twentieth day of February, in the year of our Lord, one thousand eight hundred and eighty.

JOHN CHAMBERLIN,
WILLIAM N. EATON,
CHAS. H. PORTER,

Selectmen of Quincy.

OFFICER'S RETURN.

NORFOLK, SS.

FEBRUARY, 21, 1880.

Pursuant to the within warrant, I have notified the inhabitants of the town of Quincy herein described, to meet at the time and place and for the purposes within mentioned, by posting up attested copies of this warrant at ten or more public places in said town nine days before the time set for said meeting; and I have likewise caused the substance of said warrant to be published in the "Quincy Patriot," a public newspaper printed in said town.

WASHINGTON M. FRENCH,

Constable of Quincy.

A true copy.

Attest: GEORGE L. GILL, *Town Clerk.*

RECORD OF ANNUAL MEETING, 1880.

The Annual Meeting of the inhabitants of the town of Quincy was held, pursuant to the foregoing warrant, on Monday, March 1, 1880.

Chose John Quincy Adams, Moderator.

Voted, That after the election of town officers under Article 2 of the warrant, the Moderator, without entertaining any other motion, shall declare this meeting adjourned to meet at this place on Monday, March 22, 1880, at one o'clock P.M., at which time the remaining articles of the warrant shall be considered.

Voted, That the Moderator of this meeting, with the retiring Selectmen, the Selectmen elect, and fifteen citizens to be appointed by the Moderator, three of whom shall be inhabitants of the South District, three of the Centre District, three of the West District, two of the North District, two of Wollaston, and two of Quincy Point, shall consider the remaining articles in the warrant, and the report of the Committee on Water Supply and Sewerage, and report at the adjournment of this meeting what action they consider it advisable for the town to take thereon, with suitable form of votes for carrying out their recommendations.

Voted, To proceed to vote for Town Clerk, Town Treasurer, three Selectmen and Assessors, two School Committee for three years, two Managers of Adams Academy for three years, two Trustees of the Public Library for three years, two Managers of Mount Wollaston Cemetery for two years, one Commissioner of the Sinking Fund for three years, and fourteen Constables, all on one ballot.

Voted, To close the polls at 4 o'clock and 5 minutes P.M.

The result of the voting was declared by the Moderator to be the election of the following officers ; viz., —

George L. Gill for Town Clerk ; and the oath of office was administered to him by the Moderator.

Horace B. Spear for Town Treasurer.

William A. Hodges, William N. Eaton and Charles H. Porter for Selectmen and Assessors.

Alfred Sampson and Jason G. Witham for School Committee for three years.

Josiah P. Quincy and Edward Norton for Managers of Adams Academy for three years.

H. A. Keith and Henry Barker for Trustees of the Public Library for three years.

George L. Baxter and Joseph H. Vogel for Managers of the Mount Wollaston Cemetery for two years.

Abner B. Packard for Commissioner of the Sinking Fund for three years.

John L. Maxim, Washington M. French, J. Warren Hayden, James E. Maxim, N. B. Fernald, Leone C. Badger, Michael Walsh, William C. Seelye, E. H. Richardson, Edward A. Spear, George H. Locke, George B. Pray, William Parker and Alonzo Glines for Constables.

The following is the number of votes cast for the several candidates for Town Officers, as declared by the Moderator:

<i>Town Clerk.</i>		<i>Votes.</i>	
	<i>Votes.</i>		<i>Votes.</i>
George L. Gill,	1339	Ensign S. Fellows,	546
		Edmund B. Taylor,	541

McDonnell, John H. Dee, Quincy Tirrell, John W. Hall, C. F. Adams, Jr., Seth Dewing, Jonas Shackley, Joseph W. Robertson, E. A. Perkins, Chase Parker, H. T. Whitman, G. W. B. Taylor, H. M. Federhen, Preston P. Kittredge.

In accordance with the vote passed at the opening of the meeting, the same adjourned to Monday, March 22, 1880, at one o'clock P. M.

Attest : GEORGE L. GILL, *Town Clerk.*

WARRANT FOR A SPECIAL TOWN MEETING.

NORFOLK, SS. *To either of the Constables of the town of Quincy, in said County,* GREETING :

In the name of the Commonwealth of Massachusetts, you are hereby required to notify and warn the inhabitants of the town of Quincy, qualified to vote in town affairs, to

meet at the TOWN HALL in said Quincy, on MONDAY, the Twenty-second day of March instant, at 12.50 o'clock in the afternoon, to act on the following articles ; viz., —

ART. 1. — To choose a Moderator.

ART. 2. — To see if the town will authorize the purchase of the Totman farm and adjoining land of Hon. C. F. Adams, as recommended by the Committee on the New Almshouse for a site for an almshouse, or buy such other suitable parcel of land as the town may deem proper for that purpose, and appropriate money therefor.

ART. 3. — To see if the town will authorize the extension of the Mount Wollaston Cemetery eastwards so as to embrace the tract of land now used by the town for a poor-farm, as recommended by the Committee on a New Almshouse.

ART. 4. — To see if the town will alter the first and third By-laws of the town so that the financial year shall close on the last day of December and begin on the first day of January in each year.

ART. 5. — To see if the town will repeal, annul or amend the fourteenth By-law of the town which is as follows : 'A discount of four per cent shall be allowed on all taxes collected and paid on or before the fifteenth of September in each year.

ART. 6. — To see if the town will accept and adopt the provisions of the Betterment law.

Hereof fail not, but make return of this warrant, with your doings thereon, unto the Town Clerk, on or before the day and time appointed for said meeting.

Given under our hands, at Quincy, this fourth day of March in the year of our Lord one thousand eight hundred and eighty.

WILLIAM A. HODGES,
WILLIAM H. EATON,
CHARLES N. PORTER,

Selectmen of Quincy.

OFFICER'S RETURN.

NORFOLK, ss.

March 9, 1880.

Pursuant to the within warrant, I have notified the inhabitants of the town of Quincy herein described, to meet at the time and place and for the purposes within mentioned, by posting up attested copies of this warrant at ten or more public places in said town, ten days before the time set for said meeting; and I have likewise caused the substance of said warrant to be published in the "Quincy Patriot," a public newspaper printed in said town.

WASHINGTON M. FRENCH,

Constable of Quincy.

A true copy.

Attest: GEORGE L. GILL, *Town Clerk.*

RECORD OF THE SPECIAL TOWN MEETING.

A meeting of the inhabitants of the town of Quincy was held pursuant to the foregoing warrant, March 22, 1880, at 12 o'clock and 50 minutes P.M.

Chose John Quincy Adams for Moderator.

Voted. To adjourn until immediately after the adjournment of the Annual Town Meeting.

Attest: GEORGE L. GILL, *Town Clerk.*RECORD OF ADJOURNED ANNUAL MEETING,
MARCH 22, 1880.

The Annual Town Meeting was held this day, at one o'clock P.M., by adjournment from March 1, 1880.

Voted, That no motion to reconsider any vote shall be in

order unless the mover thereof shall give notice of his intention so to do before the town has passed from the consideration of the article under which the question was taken.

Voted, That a committee of four for the floor of the house, and two for the gallery, be appointed by the Moderator to count and report the number of votes upon all matters when, by reason of doubt, the Moderator may find it necessary to order a count; and Messrs. Ensign S. Fellows, Herbert M. Federhen, Benjamin F. Curtis, Edwin W. Marsh, Jason G. Witham and Jonas Shackley were appointed.

Voted, That the Moderator appoint three persons to act as Auditors for the ensuing year; and John Chamberlin, William Lyman Faxon and H. A. Keith were so appointed.

The following articles of the warrant which were acted upon in their due order, were by vote indefinitely postponed:

Art. 10. Concerning purchase of a new Hook and Ladder Truck.

- | | | |
|-------|---|---|
| " 12. | " | Extension of Water-pipes. |
| " 14. | " | Reservoir on Billings street. |
| " 16. | " | Pay of L. W. Lovell, Engine Co., for 1877. |
| " 22. | " | Distribution of an Educational Address of C. F. Adams, Jr. |
| " 25. | " | Laying out Arnold street as a town way. |
| " 27. | " | Laying out Belmont street and Lincoln avenue as a town way. |
| " 28. | " | Sidewalks on Billings street. |
| " 29. | " | Sidewalks on Brook street. |
| " 30. | " | Drain down Faxon avenue. |
| " 32. | " | Squantum causeway as a town way. |
| " 35. | " | Repairing highways by contract. |
| " 38. | " | Appointment of Police by the Selectmen. |

Voted, To accept the reports of the Auditors, Selectmen

and School Committee ; and that the same be placed on file, and the financial recommendations therein be considered under Article 39 of the warrant.

Voted, That the Collector of Taxes shall keep a cash-book, showing the dates and amounts of all payments by him to the Treasurer, and of all payments of taxes to him, with the names of parties making such payments.

Voted, That the Selectmen shall keep a cash-book, showing particulars of bills paid by them. They shall also keep one ledger, showing the amounts expended under the different accounts for which money is appropriated by the town, and one in which shall be opened accounts with all parties who owe the town.

Voted, That said books shall be kept in a permanent form.

Voted, That all receipts for payments to school-teachers, members of the fire department, persons laboring on highways and in cemeteries, and persons receiving State aid, shall be made out on printed forms, and the payments shall be receipted by the persons to whom the money is due.

Voted, That the Selectmen are authorized to employ clerical assistance to an amount not exceeding three hundred dollars in value.

Voted, That the highways be repaired under the direction of the Surveyors of Highways the ensuing year.

Voted, That the Overseers of the Poor shall direct the improvements of the town lands for the ensuing year.

Voted, To accept the list of jurors as prepared by the Selectmen after excusing B. F. Curtis and omitting H. P. Abbott.

Voted, To accept the report of the Selectmen on guide-boards.

Voted, That the sum of two hundred dollars be appropriated for the purpose of keeping in repair or decorating the

graves within the limits of Quincy of soldiers or sailors who died in the military service of the United States, or the monuments or other memorials erected to their memory, the same to be expended under the direction of Post 88 of the Grand Army of the Republic, and the Treasurer and Commander of the said Post shall furnish to the Selectmen a true and detailed account, duly itemized and certified by them, of the manner in which said sum was expended, within thirty days after Decoration Day.

Voted, That the Engineers, Members and Stewards of the Fire Department shall be allowed and paid the following sums for their services the past year; viz., Chief Engineer, \$25; Clerk, \$25; 5 Assistant Engineers, \$15 each, \$75; 5 Stewards, \$40 each, \$200; Steward of the Hose Company, \$100; Engineer of Steam Pump, \$125; 215 Members of Engine Companies, \$2150; total, \$2700.

Voted, That the members of the Fire Department shall be paid only upon pay-rolls to be made up and certified according to the following form, which rolls shall be deposited with the Selectmen, and by them filed and preserved as vouchers for such payments, and as evidence of the faithful performance of the services paid for:—

[FORM.]

QUINCY, May 1, 188—.

Received of the town of Quincy the sums affixed to our respective names, for services rendered as members of the Fire Department of Quincy for the year ending April 30, 188—.

NAMES.

AMOUNT.

SIGNATURES.

We certify that the above-named persons have been members of the ——— Co., No. —, from the first

Monday in May 18—, and that they have performed their duties as firemen through the year ending at date.

_____ *Foreman.*
 _____ *Clerk.*

Quincy, April 30, 188—.

Approved :

Chief Eng. Fire Dept. of Quincy.

Quincy, ——— 188—.

Voted, That the town will purchase a chemical engine at an expense not to exceed one thousand dollars, under the direction of the Board of Engineers. The engine, when procured, shall be stationed at North Quincy, if a suitable house for it can be obtained, and shall be managed by a company of not more than ten men.

Voted, That the sum of one thousand dollars is hereby appropriated for that purpose.

Voted, That the Board of Engineers shall purchase fifteen hundred (1500) feet of fire hose for the use of the Fire Department at an expense not to exceed sixteen hundred and fifty (1650) dollars; and said sum is hereby appropriated therefor.

Voted. That the Board of Engineers shall construct a reservoir upon land of Benjamin F. Curtis, near the junction of Union and Main streets, at an expense not to exceed one hundred and seventy-five dollars, provided said Curtis will convey to the town the land necessary for the same without cost, in fee simple.

Voted, That the sum of one hundred and seventy-five dollars be appropriated for that purpose.

Voted. That the Selectmen are instructed to issue no licenses for the sale of intoxicating liquors as a beverage during the ensuing year.

Voted, That it is the sense of this meeting that all special town meetings, where no sufficient reason to the contrary exists, shall be called by the Selectmen at 7.30 P.M.

Voted, That the Selectmen shall grant the free use of the Town Hall, whenever it shall be requested in writing by not less than two respectable citizens of the town, for a free lecture on any scientific, literary or moral topic, subject to such reasonable regulations as they may deem expedient.

Voted, That the Town Clerk shall prepare for publication the records in full of all the town meetings since January 1, 1873, and complete the same by entering in detail the number of votes cast at all elections for the several candidates for town officers, as declared at the time by the moderator, and printed in the "Quincy Patriot" and the same shall be printed under the supervision of the Town Clerk, and distributed as a town document to the voters of the town; and the sum of four hundred and fifty dollars is hereby appropriated for that purpose.

Voted, That hereafter the Town Clerk shall keep a record of the votes cast at all elections of town officers, as declared by the Moderator, and shall cause the complete record of each year to be printed annually as a part of the town book of the succeeding year.

Voted, That William A. Hodges, John Quincy Adams and Edwin W. Marsh be a committee who shall take into consideration the matter of the purchase of Henry H. Faxon of about 3800 square feet of land adjoining the town-house lot, and examine the title to said strip of land, and recommend a suitable disposition of the same, and report to Mr. Faxon within *ninety days* what the tenor of their report will be at the next annual Town Meeting. Also to consider and report the expediency of enlarging the Town Hall.

Voted, That the Selectmen be instructed to notify the

family of the late Thomas Crane, that the town of Quincy gratefully accepts their recent munificent proposal to erect an edifice in Quincy to his memory, to be used as a Public Library building; and the Town Clerk is instructed to enter at large upon the town records the letter of Albert Crane, dated February 19, 1880, conveying such proposal in connection with this vote :

"26 BROAD STREET, NEW YORK. Feb. 19, 1880.

" *To the Board of Selectmen of the Town of Quincy, Mass. :*

"Gentlemen, — The family of my father, the late Thomas Crane, of New York, are desirous of erecting some memorial to him. Though long a resident of New York, my father always retained a strong feeling for the town of Quincy, where his family originated and had resided for over a century, and where he himself passed the earlier portion of his life. After much deliberation, therefore, his family have thought that a memorial erected to him in Quincy would be both more appropriate than elsewhere, and most in consonance with the tender feelings and cordial interest he always manifested therefor in his lifetime, and which he constantly expressed to us. Prior to his death in 1875, he had made annual visits to Quincy for many years, and his affection for his native place never in any degree lessened.

"His family, therefore, desire to make through you the following proposition to the town of Quincy: They will erect an edifice to his memory, to be known as the Crane Memorial Hall or Library, to be held in trust forever by the town or by some corporation authorized by it, for the free use of the town as a Public Library building. On this memorial we will expend not less than twenty thousand dollars, — we to select the architect, who shall be one of standing and ability, the architectural design and the details of material and construction, — should the town, on its part, be willing

to dedicate a site therefor, satisfactory to us, in some convenient and central locality. Of the few such sites that seem suitable, none has so favorably impressed us thus far as the plot of ground formerly owned by the late Dr. Ebenezer Woodward, and now in possession of his nephew, we understand. This is urged simply in the way of suggestion.

"We shall be obliged if you will bring this matter to the notice of the citizens of Quincy in such a way as seems to you best, and at your earliest convenience, in order that, if this proposition be accepted, we may proceed at once to consider the necessary questions of detail and work of construction at an early day.

"I remain yours very truly, "ALBERT CRANE."

Voted, That said building, when completed and conveyed in trust to the town, shall be known as the "Crane Memorial Hall;" the town library shall be deposited in it, and shall be thereafter called the "Thomas Crane Library."

Voted, That the Selectmen and the Trustees of the Public Library are hereby constituted a special committee to confer with the representatives of the Crane family, with full power on behalf of the town to arrange all details respecting said Memorial and Library building, and to procure a suitable site for it, which shall be satisfactory to them and to the Crane family, at an expense to the town of not more than ten thousand dollars.

Voted, That the Selectmen are instructed to apply forthwith to the General Court, now sitting, for an act incorporating the Trustees of the Public Library with power to receive and hold for the designated purposes the proposed hall, the land under and around it, and any other property which may be hereafter given or bequeathed to the town for Public Library purposes.

Voted, That the sum of ten thousand dollars, or so much thereof as shall be required, is hereby appropriated for the purpose of procuring a suitable site for the Crane Memorial Hall.

Voted, That the Overseers of the Poor are instructed to build a new almshouse, upon plans and specifications to be approved by them; the same to be built under their oversight and inspection, and at a cost in no event to exceed twelve thousand dollars, upon a site to be selected and obtained by a committee of seven, consisting of the Selectmen, and four citizens to be appointed by the Moderator; provided, however, and in order that the committee have time to determine deliberately and wisely upon the best possible location therefor, the actual construction of the house shall be deferred until after the next annual Town Meeting. Messrs. William A. Hodges, William N. Eaton, Charles H. Porter, Edmund B. Taylor, Joseph W. Robertson, Henry H. Faxon and Jacob Hersey constitute said committee.

Voted, That this Annual Meeting now adjourn for the purpose of acting on the articles in the warrant for the special meeting.

Attest : GEORGE L. GILL, *Town Clerk.*

RECORD OF THE SPECIAL TOWN MEETING.

The Special Town Meeting which was called at twelve o'clock and fifty minutes this day, March 22, 1880, and which was at that hour duly organized and adjourned, was now called to order by the Moderator thereof, John Quincy Adams, and the following votes passed : —

Voted, That the committee of seven to select a suitable site for the new almshouse which was constituted by vote under Article 24 of the Annual Town Warrant, is authorized

to purchase or otherwise obtain for the use of the town a suitable parcel of land for use as a site for a new almshouse, and to procure a proper deed, lease or other conveyance of the same to the town ; provided, however, and their authority is upon the express condition, that they can obtain a suitable site at an expense on no account to exceed six thousand dollars.

Voted, That the sum of six thousand dollars, or so much thereof as may be needed, is hereby appropriated for that purpose.

Voted, That the tract of town land, or so much as may be suitable for that purpose, lying southeasterly of Sea street and heretofore used and improved as a site for the almshouse and as the town farm, shall be included in the Mount Wollaston Cemetery whenever the almshouse shall be removed to another place.

Voted, That Articles 4, 5 and 6 of the warrant be indefinitely postponed.

Voted, That the meeting be dissolved.

Attest : GEORGE L. GILL, *Town Clerk*.

RECORD OF ADJOURNED ANNUAL TOWN MEETING.

The Annual Town Meeting, which had adjourned for the purpose of action on the business for which the foregoing special meeting was called, was now again called to order by the Moderator, John Quincy Adams (March 22, 1880).

Voted, That the report of the Selectmen laying out a town way from Bridge street to a public way leading from Hancock to Adams street, is accepted ; and one hundred and fifty dollars are appropriated to construct and complete the same.

Voted, That the town will regrade Washington street, commencing nearly opposite South street to Thomas' Hall, and rebuild retaining-walls upon lands owned by John Federhen and J. L. Whiton, and appropriate the sum of four hundred and fifty dollars therefor, the money to be expended under the direction of Surveyors of Highways.

Voted, That the Surveyors of Highways are requested, if in their judgment such a sum of money may be judiciously laid out thereon at that time, to expend a sum not exceeding three hundred dollars upon the causeway from Squantum street to Beach avenue in Squantum; and the sum of three hundred dollars is appropriated for that purpose.

Voted, That the Surveyors of Highways are instructed to repair Squantum causeway at an expense not exceeding one thousand dollars; and the sum of one thousand dollars, or as much thereof as shall be needed, is hereby appropriated for that purpose.

Voted, That the Surveyors of Highways are directed to continue the causeway on Sea street, between Quincy's woods and land of Babcock and others, and widen Sea street, and build a retaining-wall at the Bit, at an expense not exceeding five hundred dollars; and the sum of five hundred dollars, or as much thereof as may be needed, is hereby appropriated for that purpose.

Voted, That the provisions of the one hundred and fifty-eighth chapter of the acts of the year eighteen hundred and seventy-one, entitled "An act to provide for the election of road commissioners," are hereby accepted.

Voted, That the deeds heretofore executed and delivered by the Selectmen in behalf of the inhabitants of Quincy to the Quincy Mutual Fire Insurance Company, to Edmund Pope and to the Weymouth Savings Bank, reconveying certain parcels of land sold for non-payment of taxes, are here-

by ratified and confirmed ; and the Selectmen are authorized hereafter to execute deeds for the inhabitants in all like cases.

Voted, That the Overseers of the Poor are instructed to consider whether it is not possible to regulate and restrict the necessary expenditures for medicines, medical attendance, and especially for house rents for the poor of the town, so that these items may be reduced within reasonable bounds.

Voted, That the School Committee are directed not to divert any part of the sum voted for repairs to any other purpose.

Voted, That the Collector of Taxes be appointed by the Selectmen, and be paid a rate of compensation to be fixed by them.

Voted, To raise, and to assess on the polls and estates of the town, the sum of one hundred and seven thousand four hundred and twenty $\frac{34}{100}$ dollars, to be appropriated as follows : —

Pay of teachers, fuel, and care of school	
buildings,	\$26,100
Incidental expenses of schools,	2,000
Transportation of pupils,	600
Books and stationery for schools,	300
Repairs on school buildings,	2,000
Superintendent's salary,	2,000
Support of poor,	8,500
Widening Granite street,	300
Repairs of town buildings,	500
Discount and abatement of taxes,	5,000
Interest on town debt,	5,000
Miscellaneous town expenses,	2,000
Bridges,	1,200
Mount Wollaston cemetery,	1,000

Old cemetery,	\$100
Repairs of highways,	8,500
Removal of snow and miscellaneous high- way expenses,	2,000
Decoration of soldiers' graves,	200
Public Library,	2,200
Fire Department,	4,500
Police station and vagrant account,	400
Street lights,	2,500
Aid to indigent soldiers,	400
Pleasant-street reservoir,	110
Net excess of expenditures over the appro- priations for 1879,	1,560 34
Pay of town officers,	3,600
Sinking fund,	3,000
New fire hose,	1,650
Reservoir at the junction of Union and Main streets,	175
Land for "Crane Memorial Hall," for Pub- lic Library,	10,000
Land for new almshouse,	6,000
New street from Bridge street,	150
Regrading Washington street, at Quincy Point,	450
Repairing causeway from Squantum street to Beach avenue,	300
Repairing Squantum causeway,	1,000
Repairing causeway on Sea street and build- ing a retaining wall,	500
Chemical engine for Atlantic,	1,000
Printing records of town meetings,	450
Health officer,	100

Committee on examination of title to land
of H. H. Faxon, adjoining the town-
house lot,

75

\$107,420 34

The appropriation for the pay of town officers allows \$700 each for the Selectmen and Assessors, and the balance of the appropriation will cover all others.

The appropriation for street lights is based on an estimate for a new contract to be made with the Citizens' Gas Company of this town, to commence June 1, 1880.

Voted, That the report of the Committee on Health and Sewerage be referred to the Selectmen, who are requested to consider the recommendations thereof, and take such steps as may legally be in their power to make the same effective.

Voted, That the Selectmen are further instructed to cause an article to be inserted in the warrant for the next annual meeting, to see if the town will elect a board of health, or a health officer.

Voted, The thanks of the town are hereby presented to the members of the Committee on Health and Sewerage for the faithful and laborious manner in which they have performed their onerous and delicate duties.

Voted, That the thanks of the town are given to John Quincy Adams, Esq., for the efficient and satisfactory manner in which he has discharged the duties of Moderator, and also as Chairman of the Committee on the consideration of the articles of the warrant.

Voted, That this meeting be dissolved.

Attest : GEORGE L. GILL, *Town Clerk*.

WARRANT FOR PRESIDENTIAL AND STATE ELECTION, NOVEMBER 2, 1880.

NORFOLK, SS. To either of the Constables of the Town
of Quincy, in said County, GREETING :

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the inhabitants of the town of Quincy qualified to vote in elections, to meet at the TOWN HALL in said Quincy, on TUESDAY, the second day of November next (it being the Tuesday next after the first Monday in said November), at eight o'clock in the forenoon, to give in their votes to the Selectmen on one ballot for —

Thirteen Electors of President and Vice-President of the United States : Representative to Congress for District No. 2 ; Governor of the Commonwealth ; Lieutenant-Governor of the Commonwealth ; Secretary of the Commonwealth ; Treasurer and Receiver-General of the Commonwealth ; Auditor of the Commonwealth ; Attorney-General of the Commonwealth ; Councillor for District No 2 ; Senator for the first Norfolk District ; one County Commissioner ; two special County Commissioners ; three Commissioners of Insolvency ; Sheriff for Norfolk County ; District Attorney for the Southeastern District, and three Representatives to represent the Fifth Norfolk District in the next General Court, to be held at Boston on the first Wednesday in January next.

The names of the candidates for all the above-named offices must be borne on one ballot, to be presented open or unfolded, or enclosed in a sealed envelope, at the option of the voter.

The polls for the reception of the ballots aforesaid will be opened at eight o'clock in the forenoon, and will be kept open four hours, and such further time as the meeting may determine.

And you are hereby directed to serve this notice by posting the same in two or more public places within said town, seven days at least before the time of holding said meeting.

Hereof fail not, but make due return of this warrant, with your doings thereon, unto the Town Clerk, on or before the day and time appointed for said meeting.

Given under our hands, at Quincy, this twenty-first day of October, in the year of our Lord, one thousand eight hundred and eighty.

WILLIAM A. HODGES,
WILLIAM N. EATON,
CHARLES H. PORTER,
Selectmen of Quincy.

A true copy.

Attest : WASHINGTON M. FRENCH,
Constable of Quincy.

OFFICER'S RETURN.

NORFOLK, SS.

MARCH 29, 1879.

Pursuant to the within warrant, I have this day notified the inhabitants of the town of Quincy herein described, to meet at the time and place and for the purposes within mentioned, by posting up attested copies of this warrant at eight or more public places in said town, eight days before the time set for said meeting; and I have likewise caused the substance of said warrant to be published in the "Quincy Patriot," a public newspaper printed in said town.

WASHINGTON M. FRENCH,
Constable of Quincy.

A true copy.

Attest : GEORGE L. GILL, *Town Clerk.*

RECORD OF PRESIDENTIAL AND STATE ELECTION, NOVEMBER 2, 1880.

 5. Frank P. Waterhouse to Addie W. Baxter, both of Quincy.
 6. Walter Ray of Quincy to Annie A. Potter of Salem.
 11. Michael Costello, jr., of Quincy to Mary A. Hill of Braintree.
 12. Patrick McDonnell, 3d., to Mary L. Haggarty, both of Quincy.
 13. Wallace H. Butland of Quincy to Jennie L. Mason of Dorchester.
 16. James S. Conant of Boston to Jennet Orr Bryant of Quincy.
 16. Augustus Vincent to Elizabeth Mattie, both of Quincy.
 19. John V. Allen of Braintree to Mary C. Page of Quincy.
 20. Marcus M. Berry of Quincy to Sarah Ann Spear of Braintree.
 21. George H. Higgins to Emily A. Bosworth, both of Quincy.

- Oct. 28. George F. Elcock of Quincy to Julia Scannel of Boston.
 30. Eward A. Richardson to Josephine M. Haskell, both of Deer Isle, Me.
- Nov. 2. Benjamin F. Howe to Louise M. Williams, both of Boston.
 2. Harvey Bates of Marshfield to Adeline S. Grout of Worcester.
 5. Telles Stone to Mary Marchand, both of Quincy.
 7. Joseph Bersig of Quincy to Laura Hock of Boston.
 7. Charles F. Rice to Charlotte E. Panton, both of Quincy.
 18. Daniel Flowers to Mary Gillis, both of Quincy.
 21. Michael F. O'Brien to Catharine F. Larkin, both of Quincy.
 21. William F. Winneberger to Sarah Adelaide Pratt, both of Quincy.
 21. John A. Bolger of Milton to Elizabeth A. Hurley of Quincy.
 23. Patrick J. Cunniff of Quincy to Fannie L. Deane of New Bedford.
 23. Gardner S. Prescott to Emma Christian, both of Quincy.
 24. John S. Lucas to Josephine G. Webster, both of Quincy.
 24. Anson L. Wright of Weymouth to Annie L. Thayer of Quincy.
 24. James H. Elcock to Margaret J. Kelly, both of Quincy.
- Dec. 9. Daniel McDonald to Annie Beaton, both of Quincy.
 11. Sanford Davis to Catharine A. Fihely, both of Quincy.
 13. Frank Hersey to Jane Hanson, both of Quincy.
 15. William Curtis Pierce of Boston to Anna Moore Lord of Quincy.
 23. John Spargo to Mary Allison, both of Quincy.
 23. Charles H. Collins of Boston to Edith A. Faxon of Quincy.
 24. James A. Ford of Quincy to Mary E. Clark of Weymouth.
 25. Hobart N. Cutter to Lizzie A. Sias, both of Milton.

Dec. 28. Edward D. Allen of Quincy to Maggie E. McKenna of Weymouth.

29. Franklin D. Rideout to Anna L. Reed, both of Quincy.

30. George A. Bosworth of Concord, N. H., to Jennie Sampson of Quincy.

REPORT
OF THE
SCHOOL COMMITTEE
OF THE
TOWN OF QUINCY,
FOR THE
SCHOOL YEAR 1880-81.

School Committee.

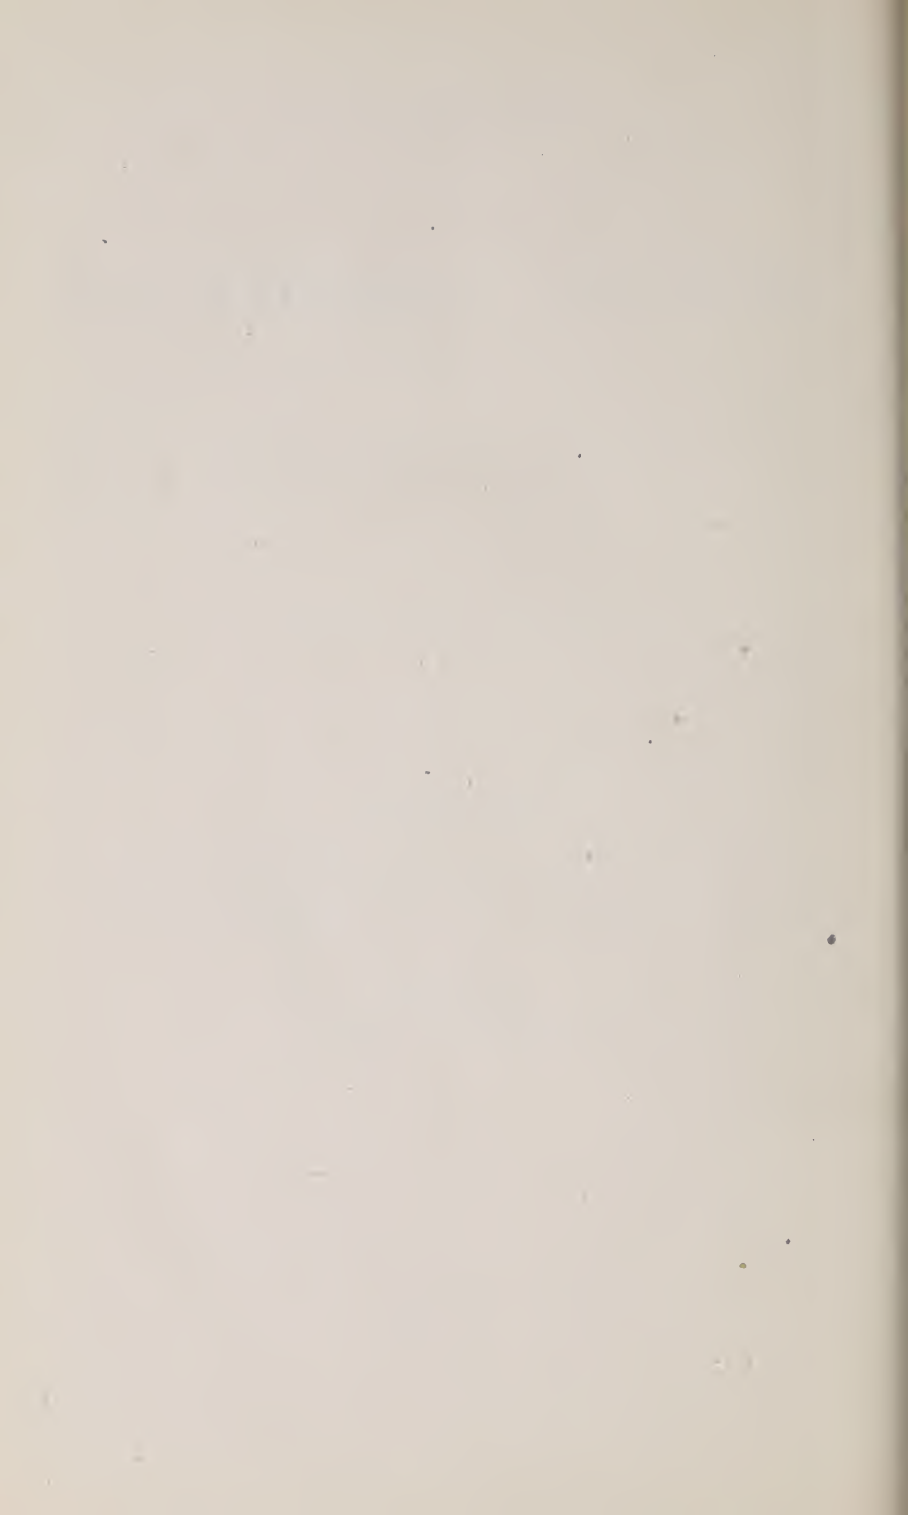

JOHN Q. ADAMS,
WILLIAM G. SHEEN,
JASON G. WITHAM,

EDWIN W. MARSH,
GEORGE L. MILLER,
ALFRED SAMPSON.

Superintendent.

SYLVESTER BROWN.

BOSTON:
H. T. JOHNSON & CO.
25 ARCH STREET.
1881.

REPORT OF THE SCHOOL COMMITTEE.

Shortly after the opening of the school year, Mr. Parker, the first Superintendent of Schools appointed in this town, resigned his office to enter upon a wider field of labor in Boston. He had agreed when he came to give to Quincy five years of his life if the town should wish him to remain so long, and he was as good as his word. For five years the town had the benefit of his faithful, intelligent and enthusiastic services. In those years he transformed our public schools. He found them machines, he left them living organisms; drill gave away to growth, and the weary prison became a pleasure-house.

He breathed life, growth and happiness into our school-rooms.

Year by year as the change went on the gradual process of transition was reported to the town, and year after year the town, by great majorities, approved the work and sustained its author. The Committee have never doubted that he wrought a great gain to education among us, and that our schools have been vastly bettered by the methods he introduced, the organization he effected and the enthusiasm he instilled. It must not therefore be assumed, however, that we ever ignored the dangers which attend any attempt to substitute free development for rigid routine, or undervalued the usefulness of the latter as a means of securing automatic action of a certain value. Emancipation from arbitrary rule can only be maintained by a considerable and persistent and vigilant intellectual exertion. The tempta-

tion to lean upon formulas is almost irresistible, and but a short dependence makes them indispensable.

From this peril no "system" can insure, no "method" protect us. It mocks at bans and bars, and creeps into the class-room as fast as it can be turned out. We detect it everywhere; in the mechanical aping of liberty no less than in servile obedience to forms. Free and spontaneous teaching is very precious, but a copy which lacks nothing of the original but its soul is a very poor thing. There are as dangerous ruts to avoid in our Quincy schools to-day as there were in those of the last decade. The constant oversight of a highly disciplined common sense should never be withdrawn from teachers who are trying to get along without crutches. We had found this in Mr. Parker: where were we to look for it when he should go?

We had long foreseen that in the same proportion that his dominant intelligence as a master, and his pervasive magnetism as a man, informed his school work, would be the difficulty of replacing him and carrying on his plans without dislocation or rupture. It seemed to be essential that his successor should be familiar with his theories and methods, and favorably disposed to his general system of school management. For while this Committee has never cared to enter the controversy as to "systems," which has raged about the name of Quincy, it has never faltered in its determination to hold fast the manifest benefit which our schools gained from the work Mr. Parker did in them.

There were results plain to be seen, before the eyes of every one, solid, substantial, unmistakable, and which could not be gainsaid or successfully questioned. These must be saved and secured, and only a sympathetic successor would be likely to save or secure them. Fortunately there was a man attainable who fulfilled this requirement. Moreover, he

was well known to the Committee as a successful teacher. Placed by Mr. Parker in charge successively of the two Grammar Schools in town then deemed the most difficult to deal with, he had so acquitted himself of his trust that, under his care, they both in turn became models of docile industry and cheerful progress. The Committee thought themselves fortunate in securing the services of Sylvester Brown to carry on the work of Francis W. Parker, and hoped that in his hands nothing that they valued would be lost. After a year of trial, they can attest from careful observation the wisdom of their choice.

His task, however, was a very difficult one. It was no child's play to make good the place of his predecessor, and to enter into and complete his plans without serious complications and derangements.

But the difficulty was aggravated tenfold by the loss at about the same time of a large part of the staff of able and experienced teachers whom Mr. Parker had selected or formed. No less than thirteen of these trained and efficient assistants, among whom were several of the most valuable of the corps left us during the year, tempted away by the greater inducements which wealthier or more lavish employers were glad to offer. Of course we have neither the right nor the wish to impute to them the slightest blame. Employer and employed had both the right to better themselves if they could at our expense, but their gain was grievous loss to us.

Perhaps only those familiar with schools can quite realize the amount and kind of injury which they suffer from changing teachers. The continuity is broken, and no matter how competent the successor, the scattered threads can only be collected and re-arranged after vexatious waste of time and fruitless toil.

Many a school which, but for this hindrance, would, we believe, have worked its way upward this year to a development hitherto unattainable, has disappointed our expectation, weighed down by the incubus of change. For this evil there is no effectual remedy within our reach. It is out of the question for us to measure purses with Brookline or Boston. Our salaries are as high as we can afford. The rate of outlay per head with us is as great now as it ought to be. We pay already an enormous sum for public education; and even that is a thing for which it is possible to pay too much. We must beware lest we make it so good that no one can afford to live in the town. But, however that may be, it is obviously the duty of your Committee to buy no better teaching than the town thinks itself able to pay for, even if that be less good than a more lavish expenditure might retain or attract.

Steadfastly resisting, then, the temptation to bid against richer competitors in a constantly rising scale of salaries, and guided by this policy, we have tried to palliate what we could not cure, and we have found a partial remedy in an excellent system conceived by Mr. Parker, and assiduously followed by Mr. Brown, of instructing a number of our young townswomen, who incline to the profession, in the theory and practice of teaching. A certain proportion of these students become, in time, proficient instructors; and although it is true that not a few of them are naturally drawn elsewhere by the flattering offers of largely increased salary, with which the more highly skilled and gifted of them are speedily beset; yet many are found to prefer a smaller pay at home to a higher pay abroad.

Thanks in great measure to this device, and not a little to the great good sense and good management with which he has handled his training class, the Superintendent has

succeeded in facing the large defection of his trusted and valued assistants without irreparable injury. As we have already admitted, our progress has certainly been impeded, and some flattering anticipations postponed; but, though checked, we have not been stopped; still less, forced backward. On the contrary, we have pressed steadily, though slowly, onward; and in spite of every obstacle, the schools, as a whole, occupy a place to-day decidedly in advance of the point they left one year ago; they are better than they ever were before. We have no hesitation in assuring the town, that at no period in its history had it so much reason to feel hopeful about its schools. This re-assuring condition of things is due to the industry, skill, tact and intelligence of the Superintendent, supplemented and sustained by the admirable assistance of his band of teachers.

It would be difficult as well as invidious to particularize where almost all are excellent, and we must content ourselves with again impressing upon the people of the town the debt of gratitude which they owe to this class of devoted public servants.

We have already declared our opinion that the rate of expense for each pupil should not be increased if it can possibly be avoided, even if by this means we should be forced to put up with comparatively inferior schools; but it must not be inferred from this that we admit any present inferiority to exist. On the contrary, it is our confident belief that, far as they are from anything like perfection, the Quincy schools will compare fairly with any of their class in this State, or perhaps in this country.

Actuated by a sense of the duty of economy, and convinced of the moral, if not the legal, obligation of confining the outlay for public education strictly within the limits which the public, in town meeting, deems sufficient, we have

tried to restrict all our expenditure within the amounts appropriated. The small excess of outlay which will be noticed is a legacy from last year, and was not incurred in this year.

The constantly recurring question in a growing town, respecting increased accommodation, may, for this year at least, be deferred. Some additional school-room may possibly be required at the Willard school-house; but a sufficient temporary provision can be arranged at a moderate expense in the existing building. For this we have asked a reasonable allowance, to be used, if required, in necessary alterations. The younger classes, too, in both the Adams and the Coddington, tend to overflow the rooms assigned to them. While this is the case in the lower grades, the upper class, in each school does not half fill its quarters. Indeed, the A grammar classes of the two schools could be as well accommodated and better taught in one room together than apart as now.

One teacher would then suffice for both, and a considerable saving in school room could be effected. How far such a plan of gathering all the A Grammar scholars of the South and Centre in one room, either in the Adams or Coddington house, might conflict with the habits or prejudices of the people, the Committee are unable to judge, and they throw out this suggestion for consideration rather than for immediate action. But it is difficult to see why such a scheme should be more objectionable for pupils of that age than our present High School system, while it would be both an economy and an improvement in organization.

The town at its last annual meeting appropriated for all school purposes inclusive, \$33,000.

To this sum the annual rents of the Coddington lands, amounting to \$75, and the town's proportion of the Schoo

fund, should be added, making the entire amount at our disposal \$33,241.29.

The total expenditure has been \$33,400.57, and is distributed under the following heads : —

For teachers' salaries and truant officers,	\$23,100 92
Fuel,	1,183 98
Care of rooms,	1,867 76
Incidental outlay,	1,984 89
Transportation,	612 20
Books and stationery,	291 07
Repairs,	2,341 75
Truant officer,	18 00
Superintendent's salary,	2,000 00
	<hr/>
	\$33,400 57

The estimated expense of this department for the ensuing year is as follows ; and the Committee recommend the town to appropriate the sums named for the purpose specified : —

Teachers' salaries, fuel, and care of rooms,	\$28,400	
Incidental expenses and transportation,	2,550	
Books and stationery,	800	
Repairs of buildings,	2,000

	<hr/>	
	\$1,250	\$35,750
		1,250
		<hr/>
		\$37,000

But of this sum \$1250 is required for extraordinary repairs and alterations, which should not be regarded as a fixed charge. In case new school-rooms are required at the

Willard school-house, we may be called on to meet an estimated outlay for new work in alteration of about seven hundred and fifty dollars. This may not be required at all, or if at all, only a part may be spent. The rest will be repaid into the treasury.

The other large item for new work is \$500 for the out-houses at the High School.

This is absolutely necessary, and should not have been postponed so long.

The appropriation for salaries is also larger, but no increase in the rate of salaries is contemplated. A new teacher may be needed at West Quincy, which accounts for a part of the excess. The most of the remainder is absorbed by the need of instructing our teachers in drawing, in order that they may be able to introduce it as a regular part of our school work as recommended in the Superintendent's report. Such a teacher will cost about five hundred dollars.

It only remains to explain the increase of the charge for books and stationery from three hundred to eight hundred dollars. As the entire sum of three hundred dollars is required for books alone, the Committee has been forced to use a large part of the amount appropriated for incidental charges to pay for paper.

The pressing demand for maps, charts, books of references and other essential teaching tools is so great that this deduction can no longer be permitted without crippling that fund.

It is one of the most valuable and distinctive features of our school work that so large a part of it is performed on paper. We cannot get along without an enormous consumption of paper of various qualities. And we can only repeat in regard to it what the Committee said last year, "This is a comparatively new charge upon the common purse, but it has always been a larger expense to individuals. By fur-

nishing stationery and books upon the plan now in operation, a real economy of more than one hundred per cent is effected. When parents were yearly called upon for perpetual new readers and copy-books, the constant dribble was not only a great annoyance, but a serious tax."

The number of children has increased considerably during the past three years, as will be noticed by the following figures : —

	1878.	1879.	1880.
Adams,	365	402	407
Coddington,	262	277	306
Washington,	245	257	271
Willard,	478	508	550
Wollaston,	133	157	189
Atlantic,	166	191	225
	<hr/>	<hr/>	<hr/>
	1649	1792	1948

Annexed will be found detailed statements of the comparative expenses of six years, from which any person can readily obtain all needful information respecting the tendency and scope of the yearly outlay of the town for common schools. Attention is particularly called to the fact that the average amount which it costs for each scholar is but \$15.50, as against \$16.40 last year.

The Committee can at least claim this credit, that the town, for the same money, gives more children better teaching, and cleaner, better ventilated and more decent accommodations.

The Committee would especially ask the careful attention of every townsman to the Superintendent's report to the Committee which is presented with this our report to the town, as it will be found to contain matter worthy the serious thought of all who feel an interest in the welfare of the children of the town.

REPORT OF THE SUPERINTENDENT.

Gentlemen of the School Board:

I present to you this my first annual report, the same being the Sixth Report of the Superintendent of Schools.

Having been a teacher in the schools of Quincy nearly all of the time they were in charge of Superintendent Parker, and being acquainted with the teachers and many of the pupils, I entered upon my duties last April under much more favorable circumstances than would have been the case if I had been a stranger to the people and unfamiliar with the methods which had been introduced. I was also fortunate in being associated with a corps of teachers well trained in the philosophy of education and the art of teaching. My chief duty, therefore, was not so much to visit schools that were already in charge of persons whose ambition it was to have schools second to none, and who also had the ability to succeed, as to fill vacancies as they should occur, and to supervise carefully the work of the few teachers who had had little or no experience. It soon became evident that this was no small task, as any one will see by looking at the number of resignations during the past year. Three of our six Grammar School principals have left us to accept positions more advantageous pecuniarily, and ten of the assistant teachers have also resigned; thus more than a fourth part of our teaching force has gone from our schools since March, 1880. In the Wollaston School not a single teacher remains who was there ten months ago; in the Quincy School only one of the former teachers is left. We cannot expect to compete with large and wealthy cities, but if some means

.

could be devised whereby our teachers could be retained here when they are called to places of less importance and wealth than our own town, our possibilities for the future would be far greater than now. Considering these drawbacks, I think we can congratulate ourselves and all interested, on the improvement that has been made. The plan of work inaugurated six years ago has been steadily continued, and each succeeding year more fully demonstrates that the line upon which we are working is emphatically the correct one. I deem it unnecessary here to define our plans and methods, as they have been so fully outlined in previous reports that all interested in their working are perfectly familiar with them.

It is generally agreed among educators, that, to the exclusion of everything else, if necessary, a child, when he leaves the Grammar School should be able to read well and understandingly at sight ordinary reading, to speak the English language correctly, to write a letter in a neat, rapid, and legible hand, to perform any arithmetical problem he would be likely to meet in practical life, and to be able to think and reason. Simple as this may seem to some, nevertheless patient labor is required for a long time to accomplish it. I think it may safely be said of our children that when they leave the Grammar School they are able to do all this ; and I may go still farther, and say that those children who entered school when Mr. Parker assumed charge and are now in the C Grammar grade are able to do it. Nor is this all that has been accomplished, as is charged by critics who have never visited our schools. Excellent results have been obtained in geography and history, and by some of the teachers something has been done by giving a few minutes each week to teaching the structure of the human body and the methods by which the health may be preserved. Much time has

been given to history, with the end constantly in view of leading the children to acquire a love for this branch of study. And here I wish to say that the plan inaugurated by Mr. C. F. Adams, Jr., while a trustee of the Public Library and a member of the School Board, has been productive of inestimable good in the study of geography, biography, history and good reading. I refer to his plan of allowing the principals of the several schools to select from the Town Library a certain number of books in proportion to their number of pupils, and keep them for as long a period of time as may be thought necessary. It is daily a matter of surprise to me that so much good reading has been done. A book is taken into the school-room, read and talked about until each child is full of enthusiasm concerning it, and all are anxious to read the book at their homes; another is commenced in the same way, and the interest increases; thus a love for good reading is created.

Who can measure the benefits that may spring from the habit of reading standard works? Horace Mann, whose memory all reverence, and whose influence will never die where the English language is spoken, said, "Good books are to the young mind what the warming sun and the refreshing rain of spring are to the seeds which have lain dormant in the frosts of winter. They are more; for they may save from that which is worse than death, as well as bless with that which is better than life." A distinguished divine has said, "A library is not a luxury, but one of the necessities of life. A book is better for weariness than sleep; better for cheerfulness than wine; is often a better physician than the doctor; a better preacher than the minister; a better sanctuary than the drowsy church."

I have insisted that every child in all grades above the D Primary should learn at least four lines of choice poetry

each week. At the close of last term I examined each school on the work for the whole term. The teachers without exception entered into this with enthusiasm, and all succeeded in a greater or less degree. It was plainly noticeable that the schools which had accomplished most with this exercise had also made a degree of improvement in reading and in the use of language more marked than the others. This work will be continued and pursued in such a manner that its results will never be forgotten. And besides being an excellent practice for the cultivation of the memory, it will be a source of much pleasure to the pupils in future years.

The principles of Civil Government is not a branch of instruction in our Grammar course at present, but may, I think, be profitably taken in connection with reading. It is now taught in the High School, but as many of our pupils go no further than the Grammar school, I propose, with your sanction, to purchase sets of books on the Government of the United States for the use of each principal. Every citizen should know at least the fundamental principles of the government under which he lives; yet where are the people at large to get this information if not in the public schools? From a good, brief book like "Martin's Civil Government," or "Townsend's Shorter Course," much useful information may be gained by children even without the aid of an instructor; but, with suggestions and explanations by the teacher an excellent general knowledge can be acquired.

In nothing have we made greater progress than in the physical culture of our children. All education should begin here. On this, success in the education of each child depends. Our moral and mental natures may be entirely changed by neglect of the body. Every child not deformed by nature — and even deformity can be lessened by right treatment — may become a well-

formed person. I have heard it said that the boys who go to West Point Military Academy, appointments being made generally through political friends, are physically no better than the average boy in our common schools; yet by reason of the daily practice of various kinds of gymnastics for a number of years, they are graduated physically perfect without exception. If the same course were pursued in all of the common schools, similar results would follow. We have had daily exercises with this end in view. Our teachers have had special regard to the way in which the children stand and walk; and the change in their bearing has been noticed and spoken of by many persons. By the liberality of Col. F. W. Parker, and of Drs. Gilbert and Gordon, prizes have been given to the best school and also to the best individual gymnasts in some of the schools, thus inducing a healthy rivalry among teachers and children that has resulted in much good. I hope the Committee will think best to ask for a small appropriation, so that the efficient service rendered by Miss Ballou, as teacher of physical exercises in the High School, may be continued for a portion of the time the coming year.

We have now arrived at that period of growth in other studies when music and drawing may be introduced into all the grades, and be pursued scientifically. In nearly all our schools the children sing fifteen minutes each day, and in one or two schools the science of music is taught. Rote-singing is better than no singing at all; yet to how much better advantage the time could be spent if pursued in the proper manner. It is the opinion of superintendents and teachers where music is taught in the schools, that besides giving a completeness to the mental culture of the child that could not otherwise be attained, there is a perceptible gain in other studies. Singing interspersed with the daily

work of the school-room, furnishes a pleasant means of recreation, improves the voice, materially aids the instructor in the teaching of reading, and, what is of far greater importance is beneficial as an aid in securing for our children health, that most desirable of earthly blessings. No one who is at all familiar with the working of the schools, can for a moment doubt the usefulness of this subject, unless it be some person with no love of music in his soul, or one who delights not in watching the faces of children beaming with happiness.

Quincy, having a population of over ten thousand inhabitants, is compelled by law to "annually make provision for giving free instruction in industrial or mechanical drawing." I consider drawing one of the most useful studies that can be successfully introduced into our common schools. It is especially valuable to the children of this town, many of whom will be engaged in a branch of industry whose foundation is a knowledge of this art. From conversation with many parents, especially in the quarrying and stone-cutting districts, I find they earnestly desire that drawing should be a regular study in our schools.

It is argued by some that as aptitude for drawing does not come naturally to all children, and as every one cannot become proficient, it should receive no attention. As well may it be said that reading aloud is useless because all cannot become perfect elocutionists, or that the study of language should be abolished because all of our children will not become accomplished rhetoricians. I quote a few propositions on this subject of industrial drawing in the public schools from the annual report on industrial drawing in the State of Massachusetts for the year 1879: "All children who can be taught to read, write, and cipher, can be taught to draw. The true function of drawing in general educa-

tion, is to develop accuracy of perception and to exercise the imagination, thereby tending to produce a love of order and to nourish originality. Educationally, drawing should be regarded as a means for the study of other subjects, such as geography, history, mechanics and design. In general education it is to be considered as an implement, not as an ornament. The practice of drawing is necessary to the possession of taste and skill in industry, and is therefore a common element in education for creating an enjoyment of the beautiful, and for a profitable practical life. Drawing may now take its legal place in the public schools as an element of, and not a specialty in, education at as little cost as any equally useful branch of instruction, with the prospect that at a future time as many persons will be able to draw well as can read and write well, and as large a proportion be able to design well as to produce a good English composition."

Hon. J. W. Dickinson, Secretary of the State Board of Education, says, "In the minds of educated men, there is an increasing appreciation of the value of drawing in the public schools. It furnishes the best means of training the observing powers and of the imagination, upon whose culture the activity of taste depends; it enables the people of a State to run the race of life with the advantages that intellectual skill can add to physical force, and it elevates the morals by calling the mind to the intelligent study of the beautiful."

In Boston all teachers must hold a certificate of ability to draw, from Prof. Walter Smith; in Brookline and other places in the State all teachers already in the schools have been provided with the proper instruction to enable them to pass the required examination. Our teachers are not all educated up to this at present, and means should be provided

whereby they can attain proficiency ; then each teacher can go on with this as with any other study.

I cannot close this report without alluding to the great advantages the Quincy schools receive from the system of training which we give to the graduates of our High School and to others, to fit them for the trying position of teachers. I believe that the excellence of our schools to-day depends in no small degree upon this special training. The advantages of this plan are many. When a vacancy occurs in our corps of teachers we are able to fill the place with a person thoroughly acquainted with our plan of work, who will give much better satisfaction than one unaccustomed to our schools. Many of the young ladies of Quincy are supplied with places, if not in our own schools, in other towns and cities. The assistance they render to the regular teachers while they are in training is very great, and I think the teachers are few who do not like and fully appreciate this assistance. If a teacher is ill some one is ready to keep the school moving, and teach more or less acceptably. It is desirable that teachers should visit other schools frequently, so that they may be able to compare schools and methods of instruction. The training class admits of this, and obviates the necessity of closing school for this purpose, as we formerly had to do.

Of the thirty-seven assistant teachers in our Primary and Grammar grades, twenty-three have been members of the training school, and many others are teaching out of Quincy. The full teaching force at the Quincy school, including the principal, received their knowledge of educational methods in the class while it was in charge of Col. Parker.

During the fall term I taught a class of twenty-six young ladies, twelve of whom now have positions here or else-

where, and others have been offered places who prefer to wait until vacancies shall occur in our schools.

The demand for Quincy teachers is so great that it is much to our advantage that these pupil-teachers wish for a time to teach in our schools after they have served their apprenticeship ; but it must be distinctly understood that much time is lost in changing teachers, even if an equally good one is secured, which is rarely the case. Months will be required to bring some of our schools where they would have been to-day but for a change in instructors.

After the teacher, nothing contributes so much to the success of a school as a pleasant room, well ventilated, and equipped with apparatus and objects for teaching. Our school-rooms, as a whole, are pleasant, and as well ventilated as rooms can be, according to our present mode of heating. There is only one means of perfect ventilation, and that would involve an expense greater than you would wish to incur at present.

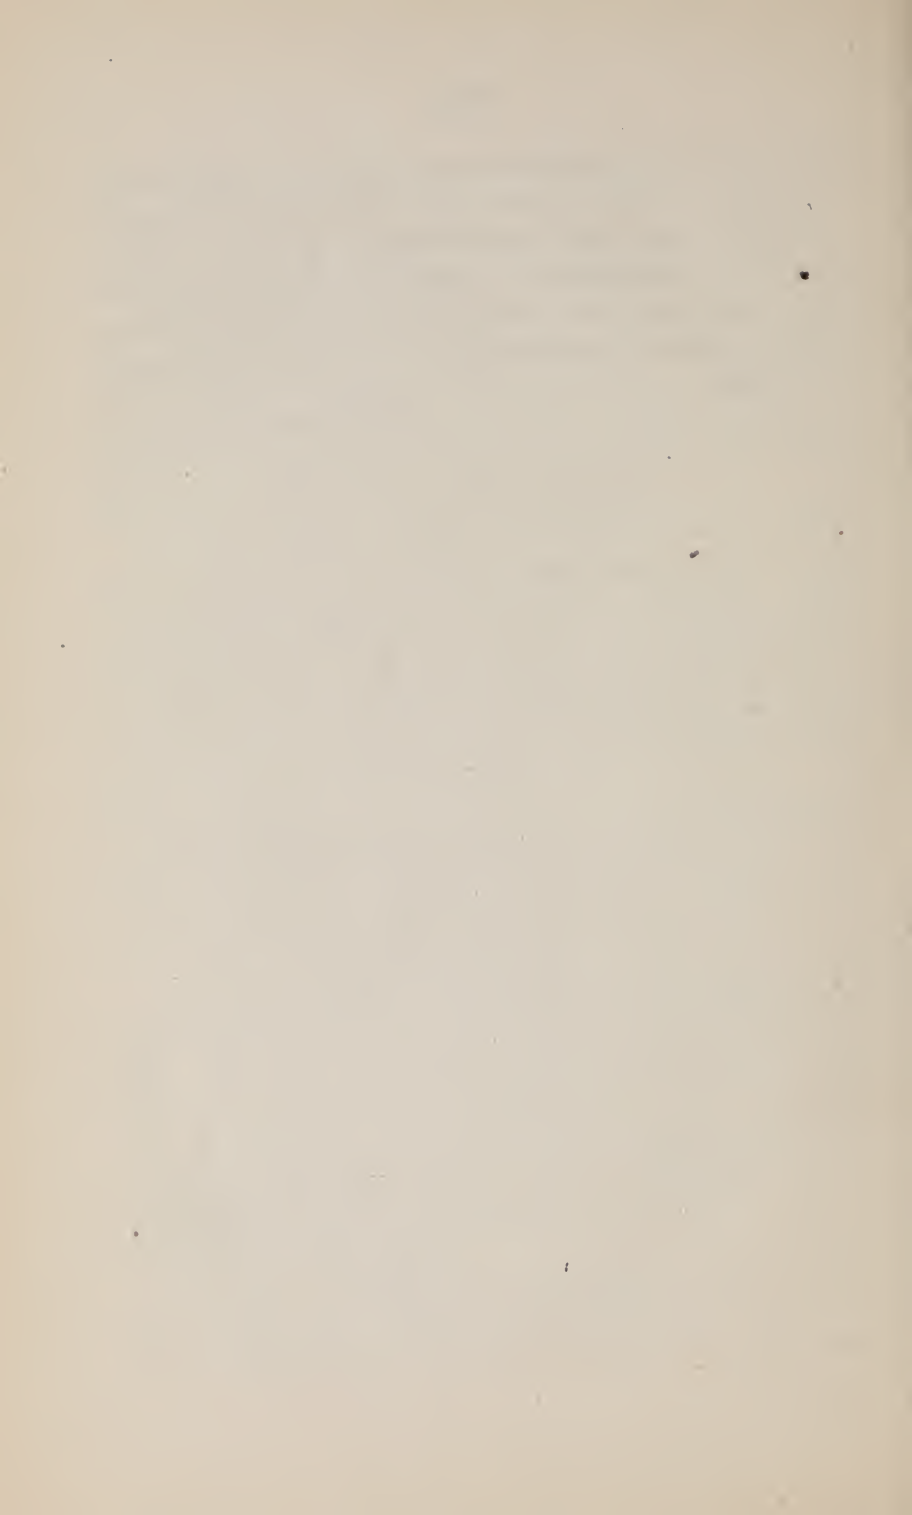

Teachers should conduct physical exercises with windows open often enough to keep the air comparatively pure, and windows should be open in all rooms for a few minutes at each recess, and also after each session of school.

Our Primary rooms are well supplied with apparatus, but the Grammar schools are somewhat deficient in this particular. The High School and Wollaston School only are supplied with sets of maps ; and although the Metric System is laid down in our course of study, no school has any apparatus to illustrate this subject. I would respectfully request that the appropriation for incidentals be sufficiently large to supply these deficiencies.

In conclusion, permit me to say that for our schools I have a high ideal. The province of the common school is to see that every child is educated physically, mentally, mor-

ally ; and when. in addition to true mental and physical development, all who enter the portals of the primary department shall leave school to enter upon the practical duties of life, having within them the germ which shall develop into true manhood and true womanhood, then, and not till then, may our ambition as directors of the education of the young be satisfied.
